

## step 3 - discussions (10+20 min)

your names:

pair with someone and discuss these

- how was it to find a tool that fits the learning purpose (not just the topic)?
- what information about a tool did you need that wasn't there?
- is there a difference between a tool useful for doing and one useful for learning?
- what would need to change in how tools are presented in the toolbox to make this kind of search easier?
